- 1 Summary of Charges and Statement Date** This shows how credits or payments have been applied to your account prior to the date shown.
- 2 Total Amount Due and Due Date** This is the current amount due for the account and the payment due date. If your account has a credit balance there will not be a due date and will instead have a note of "Credit Balance, Do Not Pay." The total amount due is a combination of the previous balance, payments, adjustments and current billing. In this example, the Previous Balance of \$0.00 plus Current Billing of \$9.91 equals Total Amount Due of \$9.91
- 3 Previous Reading** The Previous Reading is the meter read recorded on the Service From date. This is the date/read you were billed through on your previous statement.
- 4 Current Reading** The Current Reading is the meter read recorded on the Service Through date. This is the date/read you were billed through on the current statement.
- 5 kWh Usage** The kWh Usage is the Current Reading (4) minus the Previous Reading (3). This is your net billing consumption.
 - If you are consuming more power than you are generating, then this will be a positive number, and you will be charged for this consumption.
 - If you are generating more power than you are consuming, this will be a negative number which will be shown as a credit. kWh CR
- 6 Billing or Net Meter Number** The billing meter, which is also called the net meter, will have a base service charge associated with it along with kWh credits or charges.
- 7 Tiered Rates** The kWh usage is paid at different tiered rates dependent on the season:
 - 8** Summer Residential Energy - April - September
 - Winter Residential Energy - October - MarchAdditional rate information can be located at www.seattle.gov/light/rates/
 - This number could be a consumption charge if there is not a minus sign in front of the number
 - If you see a minus sign (-) in front of the number, then you are receiving credit in kWh for the excess generation you added to the grid.
- First Block Rate**
 - Summer Residential Energy - April - September - First 10kWh/day
 - Winter Residential Energy - October - March - First 16kWh/day
- End Block Rate**
 - Summer Residential Energy - April - September - Additional kWh over 10kWh/day
 - Winter Residential Energy - October - March - Additional kWh over 16kWh/day
- 9 Production Meter** The production meter shows kWh production for the billing period, and it is used solely for the annual state incentive.
- 10 Current Billing** The total of the Current Billing is a combination of your Current Electric Service and may show Other Charges such as voluntary programs like Project Share Contributions.
